### Books Descriptions

An illustrated guide to the history and evolution of the beloved role-playing game told through the paintings, sketches, illustrations, and visual ephemera behind its creation, growth, and continued popularity. Dungeons and Dragons is the most iconic and pervasive gaming franchise in the world. It is a seminal RPG (role-playing game) and the inspiration for video games like World of Warcraft and Zelda, fantasy art, and countless other facets of "geek culture." This officially licensed illustrated history provides an unprecedented look at the visual evolution of the game, showing its continued influence on the worlds of pop culture and fantasy.

It features more than 700 pieces of artwork--from each edition of the game's core books, supplements, and modules; decades of Dragon and Dungeon magazines; classic advertisements and merchandise; and never-before-seen sketches, large-format canvases, rare photographs, one-of-a-kind drafts, and more from the now-famous designers and artists
